

Dear Families,

My name is Tracey Williams, and I am thrilled to be teaching third grade at Gill Elementary. This is my 11th year of teaching. I have been at Gill for 10 years.

I received my undergrad and Masters Degree from EMU with all 3 minors in science and a Masters in Gifted Education.

I have lived in Michigan my entire life and went to Livonia Public Schools. I live in Commerce Township with my husband and 2 children. My son Luke is in 7th grade and my daughter Maria is in 5th grade.

I look forward to educating your child this year and developing a strong relationship with them. I believe in a positive learning environment, where all children will succeed. You and I working as a team...will help to ensure that your child becomes an independent, lifelong learner.

I believe that everyone learns in different ways and at different paces. I feel it is important to value these differences.

Third graders switch classes for science and social studies. I will be teaching social studies and Mrs. Gray will be teaching science to our class.

Please review our curriculum night packet for information you may need or feel free to contact me at tracey.williams@farmington.k12.mi.us or 248 489-3690.

Sincerely,
Tracey Williams
