

## **BOARD OF EDUCATION - MARCH 15, 2016 MEETING**

### **PROPOSED MOTIONS** (In recommendation order)

#### **High Schools:**

I move that the Board of Education authorize the administration to close Harrison High School effective for the 2019-20 school year. \*

\*In the event that we have additional capacity at either FHS or NFHS through either enrollment decline or student election to enter non-FPS housed programs (i.e. Early College Program or Oakland Schools Tech Center Programs), a close in the 2018-19 school year may be possible.

#### **Alternative Motion:**

I move that the Board of Education authorize the administration to close Harrison High School. This closing will begin with the current eighth grade class enrolling at Farmington High School or North Farmington High School and be completed with the graduation of the current class of 2019 from Harrison High School.

#### **Preschool/Elementary/Middle Schools:**

I move that the Board of Education authorize the administration to close Dunckel Middle School and establish the Highmeadow K-8 STEAM Academy in that location starting with the 2017-18 school year.

I move that the Board of Education authorize the administration to relocate district preschool programming from Farmington Community School and Alameda Early Childhood Center to the Highmeadow Elementary School location for the 2017-18

#### **Alternative Motion:**

I move that the Board of Education authorize the administration to provide alternative placements for Early Childhood for the 2018-19 school year.

#### **Alternative Motion:**

\*I move that the Board of Education authorize the administration to close Dunckel Middle School and establish the Highmeadow K-5 STEAM Academy and Farmington Public Schools preschool programs in that location for the 2017-18 school year.

\*This would require the creation of preschool programming within at least one other of the following locations: East Middle School, Power Middle School, Warner Middle School or Wood Creek Elementary School. The determination of location would be made based on the following criteria: available classroom spaces after configuration, ability of location(s) to be adapted to preschool usage and geographic need of preschool programming with the district.
